

Effective Practice in Assessment and Tracking: an introduction to the Guidelines for managers

During this half day session Managers and leaders will be introduced to the Foundation's Effective Practice Guidelines (EPGs) for assessment and tracking in maths and English and their impact on teaching, learning and assessment, as well as the validity of performance data. Delegates will explore implementation strategies (and how to overcome structural and attitudinal barriers to their adoption) to improve learner self-efficacy and resilience whilst meeting multiple expectations of outstanding teaching and learning, defined within the Common Inspection Framework.

15th March, 9:30-13:30
ACER, St Ives

Parallel training for practitioners and managers

Aimed at senior managers or leaders with authority to change processes of learning design and delivery. The session will be run in parallel with an equivalent session for practitioners (see, [Hyperlink](#)) enabling

managers and practitioners to collaborate in joint planning, over lunch.

Training aim

Enable delegates to re-conceptualise and strategically redesign assessment and tracking processes, to improve maths and English delivery and outcomes, based on meta-research and evidence-based practice.

Learning outcomes

- By the end of the course, participants will be able to:
- critically re-evaluate their organizational practices in assessment and tracking maths and English;
- understand the suite of EPGs and their potential impact on teaching, learning and learning support;
- identify the relevance of the EPGs in relation to the Headline Accountability Measures;
- identify potential barriers and enabling factors in implementing the EPGs across the organisation;
- operationalise the EPGs to transform assessment and tracking in support of outstanding teaching, learning and assessment and more reliable performance data.

Cost

SET member: £85 <https://set.et-foundation.co.uk>
Non-SET member: £100
